Text from Steven after December Board Meeting at the Bank

We talked as a board of directors of the bank and we really like the idea of a Laundromat at the school and having us help sponsor all or part of it (especially if we get to name the room after the bank).

We also discussed that we could do volunteering/tutoring for anything

That allows us to use our financial skills or knowledge. So math may count, but Other subjects probably wouldn't (unless you have a financial literacy class).

We can do bank presentations and financial literacy presentations. We will also Work
with the non profit Banzai or Junior Achievement to get those resources available from each
teacher. We just basically are waiting for January to hit to see what the budget is. Also, if there
was a way to have one of our board members be on the committee or board as a rep from the
bank. Any of that time would count too.

VI: PUBLIC COMMENTS/ OTHER ITEMS TO ADDRESS NEXT MEETING:
